LETTER OF RECOMMENDATION

Re: TRC Construction Services, Inc.

Dear Sir or Madam :

For many years Brookside Properties Inc. has relied on TRC Construction Services, Inc. (“TRC”) related to significant complex construction projects. Throughout our relationship, TRC has exhibited the highest level of integrity, ethics, and reliability.

Two projects stand out that exemplify TRC’s capabilities and expertise. First, in 2011 TRC was engaged to design and construct a three-level parking garage associated with the renovation and expansion of our corporate headquarters at 2002 Richard Jones Road in Nashville. The parking garage piece was quite challenging as Nashville Electric Service would make only minor modifications to the design and location of the electrical lines surrounding the property. This resulted in the need for creative design/build solutions for the parking facility. TRC was able to find excellent solutions which allowed us to stay on our timeline and allowed the project to be completed within the approved budget.

Second, in 2015 TRC was engaged to perform a design/build a parking structure at 5614 Franklin Park Circle in Brentwood. This construction project involved the construction of a multi-story garage for a bank building. It was also completed on time and on budget with quality construction practices in concert with the final approved plans.

In closing TRC has been an excellent design/build contractor. We expect to hire TRC for new projects. This, of course, is the best recommendation one can make. Should questions arise or you wish to discuss this matter further with me, please do not hesitate to call.

Very truly yours,
